## Instruction Process

### *Swing Evaluation & Interview*

The first step in reaching your goals is taking an assessment of where you are currently at, setting goals of where you want to be, analyzing your strengths and weaknesses, and developing a strategic game plan to overcome your frustrations and obtain your goals.

The Swing Evaluation and Interview is a 60-minute session. During this time, we will discuss the current state of your game, discuss current frustrations you have, and establish your goals. Armed with this information, I will then begin your swing evaluation. I will introduce you to the technology I utilize, watch you hit, analyze your swing, and together we will build a game plan for you to achieve your goals. After that, I will make a recommendation for a lesson-package that will best meet your needs and help you achieve your goals.

If you decide to move forward with lessons after the evaluation, great. If you feel that more lessons are not in your best interest, that is perfectly ok too.

I look forward to helping every student achieve their golfing goals. Here is to hard work, future success, and complete enjoyment of the entire process!
